

tottenville high school

Project: Tottenville High School - NYC Health + Hospital COVID-19 Testing Facility

Location: 100 Luten Avenue, Staten Island, NY 10312

Owner: New York City Department of Design and Construction 30-30 Thomson Avenue, Long Island City, NY 11101

Contact: Shamsell Abdill (Armand Representative)

Tel: (212) 542-4179 x41

Project Value: \$268K

Completion: August 2020

Scope of Work:

The scope of work involved the construction of interior COVID-19 testing modules in one of Tottenville High School's cafeteria for NYC Health + Hospitals, including but not limited to furnish and install all equipment and furniture; protection of existing finishes and adjacent construction; re-mobilization to disassemble, remove and dispose of all testing modules, equipment and furniture. Armand Corporation, in conjunction with NYC DDC, was charged with providing construction management services including the procurement of design and construction services for this project. All work under this contract was performed in accordance with the requirements of NYC DDC and NYC Health + Hospitals.
